### **EXAMINER'S COMMENT**

This Office Action is responsive to the applicants' amendment filed on Jan. 6, 2009.

Claims 1 and 6 have been amended. Claims 2-3 and 5 have been canceled. Accordingly, claims 1, 4, 6 and 7 are pending in this application.

Applicants' cooperation in correcting the informalities in the specification is appreciated.

#### ***Allowable Subject Matter***

1. Claims 1, 4, 6 and 7 are allowed
2. The following is an examiner's statement of reasons for allowance: as pointed out by applicants' amendment (see amendment to the claims section pages 4-5) and applicants' argument (see remarks section pages 6-10), the cited references fail to disclose or render obvious the claimed combination including the small-width portion being disposed only in a range extending between a point located  $30^{\circ}$  from the reference line and a point located  $180^{\circ}$  from the reference line in a rotational direction of the drive shaft in the inner circumferential sliding surface, and the small-width portion being provided on one side with respect to the longitudinally extending center plane of the blade, with the cylinder including a suction port that communicates with the suction chamber along the one side. Additionally, the claims are allowed because the prior art of record does not teach the advantages of combining the use of the small-width portion being disposed only in a range extending between a point located  $30^{\circ}$  from the reference line and a point located  $180^{\circ}$  from the reference line in a rotational direction of the drive shaft so that enough durability as well as safety are ensured for the swing compressor without the possibility of any damage (see page 21, lines 2-4), the mechanical loss in the driving of the compressor is reduced and the seizure is prevented (see page 22, lines 6-8).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
